Do you want me to kill him?

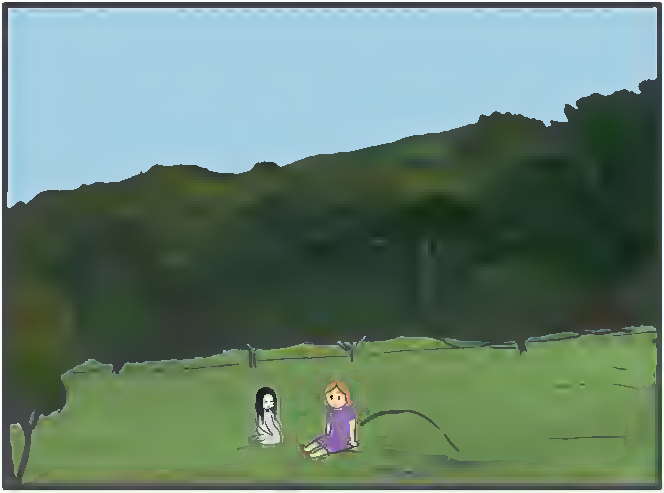
No!
No

Do you want the mulgwishin to drown him so he is stuck in the river forever?

No!
Maybe...

No!

Don't do it!
Oh I probably won't!



How can he do this to me? He said he loved me. He promised me...

Well... I think he went too fast. He is stupid, he is emotionally immature....

I think he did have feelings for you, but he wasn't mature enough to deal with the consequences.
When the excitement wears off, some people find it easier to just run awey. It happens ell the time.

But you are happy and married.
How do you know?

My husband wasn't my first love. I had my heart broken over and over before him.
Really?

Yeah. The same things were said to me.
I know how you feel.

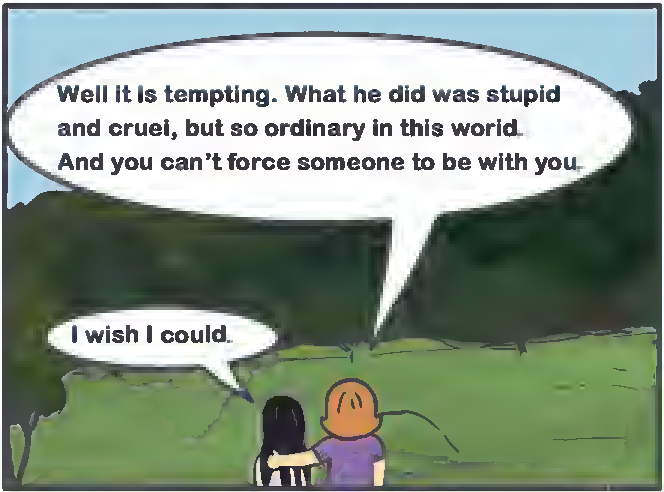
But Joon is the one! He is perfect

You only think that because you didn't know him long enough to see his faults. It sucks but he doesn't want to be with you and he hurt you a lot.

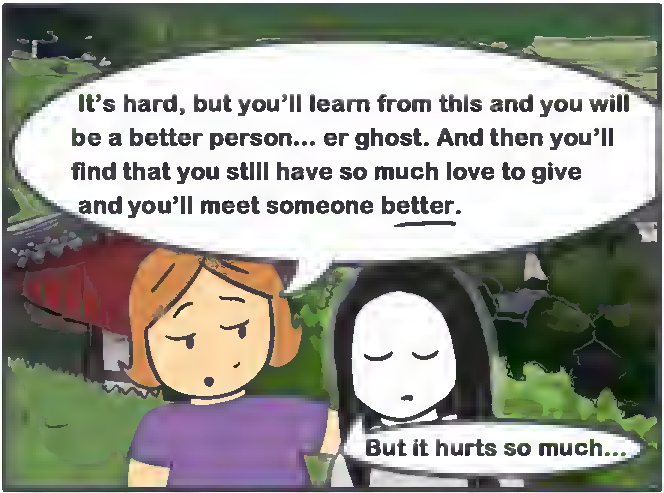
That's a pretty big fault.

He is not perfect for you... if he was... he would want to be with you... and he wouldn't hurt you like that...

Oh. Maybe we should get the Dokkaebi to punish him.



Well it is tempting. What he did was stupid and cruei, but so ordinary in this world. And you can't force someone to be with you.
I wish I could.



It's hard, but you'll learn from this and you will be a better person... er ghost. And then you'll find that you still have so much love to give and you'll meet someone better.
But it hurts so much...

It might hurt for a long time. But time heals.

And you...
you have a lot of time...
